Practice the Interview

The "Mock Interview"

- A mock interview is taking time to practice answering interview questions with someone.
- Review common job interview questions and answers, and think about how you will respond, so you are prepared to answer.
- Practicing will help calm your nerves because you won't be scrambling for an answer while in the interview hot seat.
- If you're interviewing virtually, be sure that you're comfortable with the technology.

Have you ever practiced your interview questions with family/ friend before your actual Interview?
